Animal Textures Discovery Lab
Level: Grade 2 • Subject: Animal Science
START MISSION

NotebookLM

Welcome to our Sensory Lab!

- **Your Role:** Today, you are an **Animal Scientist**!
- **Your Mission:** Learn four amazing ways animals are covered. We call these coverings **Textures**.

Tap to enter the lab!

NotebookLM

Four amazing textures cover the animal kingdom

Scales are hard and shiny.

Feathers are soft and light.

Fur is warm and thick.

Smooth Skin is thick and wet/smooth.

NotebookLM

How do scientists talk about animals?

What does a [animal] have? → It has [texture].

NotebookLM

Case File 01:
Scales

Hard & Shiny Armor

Snake: They crawl on the ground.

Fish: They have shiny scales.

Crocodile: They have very hard scales.

NotebookLM

Case File 02:
Feathers

Soft & Light for Flying

Eagle: They have strong feathers to fly.

Crow: They have black feathers.

Parrot: They have colorful feathers.

NotebookLM

Case File 03:
Fur

A Warm & Thick Blanket

Dog: Our furry friends.

Lion: The king has thick fur.

Horse: They have short, smooth fur.

NotebookLM

Case File 04:
Smooth Skin

Thick & Wet for Swimming

Whale: They have smooth skin for swimming.

Seal: They have blubber (fat) to stay warm.

Elephant: They have thick and smooth skin.

NotebookLM

Top Secret Case Files from the Imagination!

Even mythical animals have textures! What does a dragon have? It has scales!

NotebookLM

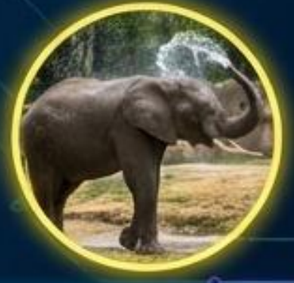
The Official Sensory Lab Data Board

Scales

Feathers

Fur

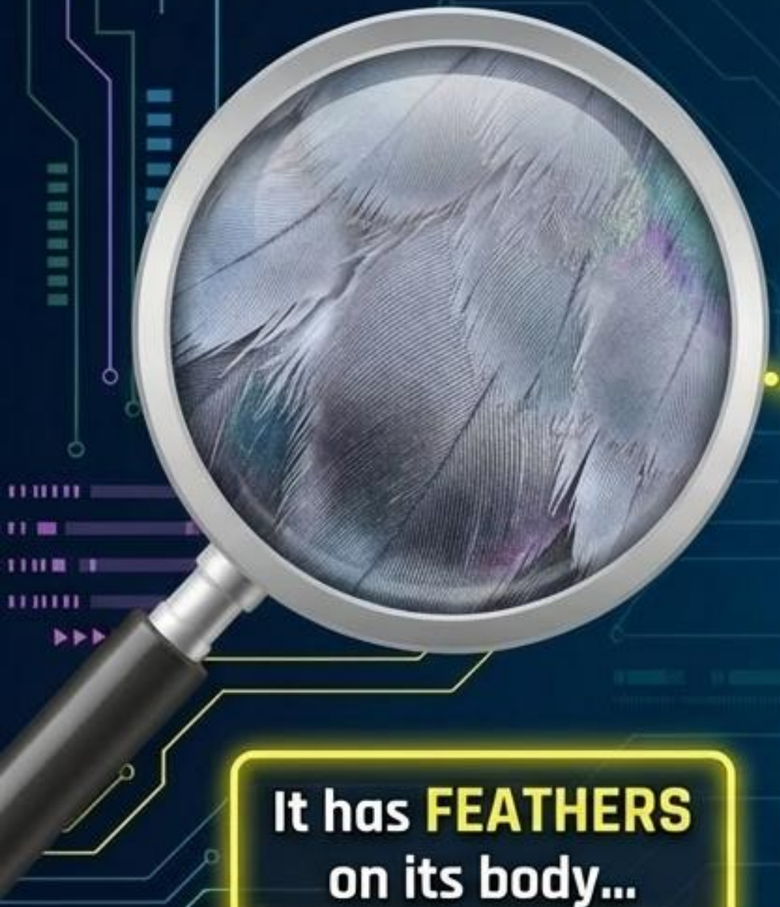
Smooth Skin



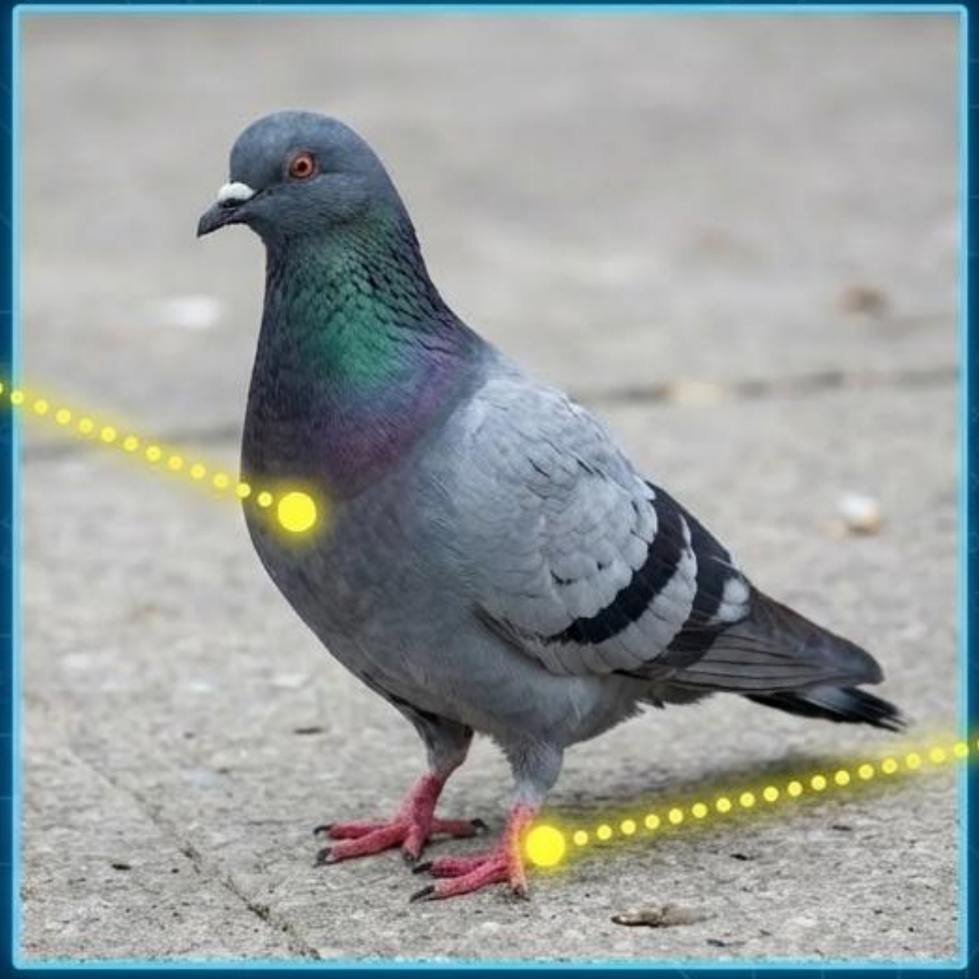
Can you say a sentence for each? An eagle has feathers.

NotebookLM

Wait a minute! Look very closely at this bird...



It has **FEATHERS** on its body...



...but it has **SCALES** on its feet!

Brilliant observation, scientists! **Some animals have more than one texture.**

NotebookLM

Lab Test: Trace a line to sort the animals!

Scales

Feathers

Fur

Smooth Skin

Put your finger on the screen.
Can you match the animal to its texture?

NotebookLM

Sensory Lab Mission Accomplished!

You are an Official Animal Scientist!

Next time you see an animal outside, look closely.
What texture does it have?

NotebookLM
